INDEX TO 1984 CONTENTS

Items in this index are organized by title and author, but not by subject. Some items are also listed under the special headings Authors, Book Reviews, Commentary, Deaths, Editorials, News, Reaction Time (letters), Scientifics, and Special Articles. In author entries, titles of articles appear only with the main author; entries for joint authors refer to the main author.

Pages included in each issue

January 1-36
February 37-68
March 69-104
April 105-138
May 139-166
June 167-192
July 193-284
August 285-312
September 313-342
October 343-376
November 377-408
December 409-452

Key to abbreviations

(B) Book Review	(L) Letter
(C) Commentary	(N) News
(D) Death	(P) Picture
(E) Editorial	(S) Scientific
(H) State Health Dept	(SA) Special Article

A

Abercrombie D, Oehlert WH: Ergotism as a cause of acute vasospastic disease with features mimicking severe atherosclerosis (S) 86
Above all. . . . Bowman RC (E) 409
ACP backs compensation for vaccine-related injuries (N) 371
ACP issues guidelines on new endocardial procedure (N) 163
ACSH rates magazines on nutrition advice to public (N) 302
Adolescent health project (H) 92
Alexander JR (P) 207
Allen JR: The chronically mentally ill (C) 411
AMA releases revision of terminology book (N) ... 337
Am I my brother's keeper? Eskridge JB III (E) ... 314
Amen EM (P) 217
Annual state meeting of ACP-OSIM set for October (N) 335
Appendicitis in pregnancy. Lineaweaver WC (S) ... 390
Arthritis research grants go to five OMRF doctors (N) 333
Athletic young asthma patients eligible for new scholarships (N) 133
Atkinson, SL: *Gynecologic Surgery, Errors, Safeguards, Salvage* (B) 375
Autopsies after AIDS deaths reveal extensive damage (N) 371
Auxiliary page ..... xxv (Jan), xxix (Feb), xxv (Mar), xxxi (Apr), xxv (May), xxvii (July), xxv (Aug), xxvii (Sept), xxvii (Oct), xxxi (Nov), xxxiii (Dec)

REYE SYNDROME

Reye syndrome is a ***rare but dangerous*** condition that can develop from ***flu or chicken pox.*** It occurs mainly in ***children under 16,*** usually when they ***appear to be recovering.*** Watch for these signs:

- ***Persistent vomiting***
- ***Fatigue***
- ***Confusion and belligerence.***

If your child displays any of these symptoms, ***consult a doctor immediately.***

Some studies indicate that there may be an association between the use of ***aspirin*** for flu and chicken pox and the development of Reye syndrome. Further studies are being conducted on this possibility. In the meantime, the ***U.S. Surgeon General*** suggests that you check with your doctor before using aspirin or any medication when your child has flu or chicken pox.

—A message from the Food and Drug Administration.
